- PHA Exec Guidelines
  - We will...
    - Make statements as a collaborative PHA council, not individual responses via personal accounts (unless decided upon as a group)
    - Take a thoughtful approach in these responses, from a foundation of respect & humility, understanding where we have excelled, where we need to improve, and when we need a different point of view because we are too close to a situation.
    - Be open to changing tradition when those traditions interfere with progress.
    - Ensure that when we are changing long standing traditions or guidelines, we are doing so in accordance to our Panhellenic values and mission as a Panhellenic Association.
    - Communicate with all the Panhellenic chapters and greater community beforehand.
    - Act on matters promptly with a purpose in order to preempt the spread of misinformation and to ensure our member experience is the best it can be.
